WORK EXPERIENCE

UI/UX Designer

Jul 2023 - Present

| Individual Contractor | Tashows, CGWorks |

Provide product design services to clients. Gather requirements and set brand goals with clients. Conduct user and competitor research & analysis. Provide information architecture, diagram user flows, wireframes, prototypes, mockups, graphic elements and art direction. Present insights to clients.

- Decreased design-to-production time by 50%, implementing design systems and component libraries. (Tailwind CSS, Bootstrap)
- Decreased client redesign requests, by proactively and timely communicating goals and decisions.

UI/UX Designer | CGWorks |

Jan 2022 - Jun 2023

Lead designer for the UX & UI of apps and websites. Conducted competitor and user analysis. Provided visual language and information architecture structure. Created wireframes, mockups, prototypes. Presented insights to clients and stakeholders in key design phases.

- Undertook 7 projects from kick-off through delivery, coordinating and aligning design & development. Provided art direction for 3 projects.
- Established design-to-development best practices and delivered style guides.
- Created an in-house multi-brand design system, based on tokenization.

UI Designer | Tashows |

Apr 2021 - Dec 2022

Provided UI design services, collaborating with a developer. Gathered requirements and brand goals from stakeholders. Provided information architecture, wireframes, prototypes, mockups and graphic elements.

- Delivered 3 projects with design style guidelines.

Architect | ao7 architects |

Sep 2018 - Mar 2020

- Analyzed briefs and requirements, visualized concept designs and construction blueprints, practicing design principles.
- Understood the value of user experience. Realized the importance of design in communicating concepts and meaning.
